DISHANT GANESH SHAHARE

Nagpur, Maharashtra, India | +91 9322564744 | dishantshahare9@gmail.com | LinkedIn | GitHub

PROFESSIONAL SUMMARY

B.Tech graduate in Artificial Intelligence with hands-on experience in Flutter app development, Flask/Django backends, and applied AI/ML. Shipped apps live on the Play Store, with projects in RAG-based NLP and computer vision.

TECHNICAL SKILLS

Programming Languages: Python, C, C++, SQL, Dart
Web Technologies: HTML, CSS, JavaScript, Bootstrap
Mobile: Flutter, Provider, Riverpod, GetX, Bloc (State Management)
Backend Frameworks: Flask, Django
Databases: MySQL, SQLite, JSON, Supabase, Firebase
Deployment & Tools: Vercel, Render, Git/GitHub, Figma, VS Code, Android Studio
AI & Machine Learning: TensorFlow, OpenCV, NLP, RAG Pipelines, Pandas, Facial Recognition, Hand Gesture Recognition

PROFESSIONAL EXPERIENCE & INTERNSHIPS

Dataventics Software Solutions — Full Stack Developer *6 Months*

- Built and deployed production-ready cross-platform applications using Flutter, covering the full development lifecycle from design to release.
- Strengthened UI/UX design and state management practices while integrating backend services for real-time application functionality.

Internship Studio — Artificial Intelligence Intern *July 2024*

- Engineered a face recognition model using deep learning, managing the complete workflow from data collection and preprocessing through training and performance evaluation.
- Contributed to AI-driven projects in computer vision and NLP under mentor guidance, applying model evaluation techniques to improve accuracy.

PROJECTS

Hyreso | AI Mock Interviews, Resume Optimization *Live on Play Store*

- Built and published an AI-driven mock interview and resume optimization platform, improving job-readiness for users.

Tech Stack: Flutter, Dart, Supabase, Firebase, AI APIs

Crop Bazar | Agritech Marketplace *Live on Play Store*

- Built an agricultural marketplace connecting farmers with buyers through product listing, price discovery, and direct transactions.

Tech Stack: Flutter, Dart, REST APIs

CampusGpt | AI Academic Assistant *GitHub*

- Built a smart AI-based platform for automated question paper generation, query solving, and academic guidance using a RAG-based pipeline for the chat module.

Tech Stack: Python, NLP, RAG Pipeline

AI-Powered Sign Language Generation System *GitHub*

- Developed a speech-to-sign-language app converting spoken input into sign poses via NLP and a gloss-to-pose ML model.

Tech Stack: Flask, Python, NLP, ML

ACADEMIC QUALIFICATION

G. H. Raisoni College of Engineering and Management *Nov 2022 – Jun 2026*

B.Tech in Artificial Intelligence | CGPA: 8.2

CERTIFICATIONS

- Artificial Intelligence Internship | Python Development

ACHIEVEMENTS

- Served as Event In-Charge for “Test The Bug”, a bug-testing event at college.
- Judged an 8-hour hackathon organized by the company during my internship.
